

**RESTORATION**  
(Application of Regenerating Oil)  
**Necessary materials**

String mop and Intemporel wood soap

New 120 grit sand paper and clean cotton cloth

Vacuum

Broomstick and Intemporel applicator

Roller Tray Liner and regenerating oil

Wash the floor with Intemporel wood soap

Gently sand in the directions of the strips with 120 grit sandpaper on a pole sander to open the wood pores

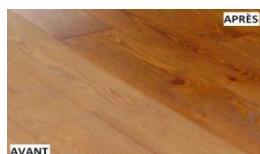

Vaccum the sanded surface to remove all grit and residue.

Saturate the wood uniformly with regenerating oil with your Intemporel applicator

Dry off the floor with your clean cloth

See the result!

**Always hang up your used covers and wipes to let them dry before throwing them in the garbage**
